## SUMMARY

Results-driven Java Full Stack Developer with 3 years of hands-on expertise in designing, developing, and maintaining robust telecom applications. Proficient in both front-end and back-end development, with a deep understanding of telecom protocols and industry standards. Proven ability to translate complex requirements into scalable software solutions that enhance operational efficiency and customer satisfaction. Adept at collaborating with cross-functional teams to deliver projects on time. Seeking to leverage technical skills and domain knowledge to contribute effectively.

## EDUCATION

CGPA 8.00, Bachelor of Engineering, Computer Science, MMIT Pune (SPPU Pune)  
10+2, 75% , Bal vidya mandir , Jalaun (Uttar Pradesh), CBSE Board  
SSC , 8.6 CGPA, 75%, Bal Vidya Mandir , Jalaun (Uttar Pradesh), CBSE Board

## EXPERIENCE

### Amdocs:- Software Developer

08/2021 - present

- **OMS (Ordering Management System):** Responsible for design, develop and debug the Ordering Management System tailored for the telecom industry, aimed at streamlining the process of handling customer orders from initiation to fulfillments. The system was designed to accommodate the complexities of telecom services provisioning, ensuring accuracy and efficiency throughout the order lifecycle.

#### Technologies Used:

- **Frontend:** HTML, CSS, JavaScript
- **Backend:** Java, Spring Framework, Spring Boot
- **Database:** Oracle, MongoDB
- **Integration:** RESTful APIs, SOAP services
- **Tools:** Maven, Perforce, Jenkins, Unix, WebLogic Server, Tomcat Server, GenAI, Github Co-pilot , Sonar
- **Others:** JIRA for project management, Agile methodology for development

### Prushal Tech. Pvt. Ltd:- Web Development Intern

08/2020 - 02/2021

- **Simple ERP Application:** The Simple ERP Application was developed to centralize and manage various aspects of company internal data efficiently. It aimed to streamline operations by providing a unified platform for storing, accessing, and analyzing critical business information. The application facilitated seamless collaboration across departments and enhanced decision-making processes through comprehensive data insights.

#### Technologies Used:

- **Backend:** Java, Spring Framework (Spring Boot, Spring MVC), Hibernate for ORM
- **Frontend:** HTML5, CSS3, JavaScript, React for dynamic UI components
- **Database:** MySQL for relational database management
- **Authentication:** Spring Security for secure user authentication and authorization
- **API Development:** RESTful APIs for seamless integration with external systems
- **Reporting:** JasperReports, Power BI for generating and visualizing reports
- **Version Control:** Git for version control management
- **Project Management:** Agile methodology with tools like JIRA for project tracking and Scrum for iterative development

## SKILLS

**Languages:** Proficient -> Java, Familiar with -> JavaScript, React Js.

**Automation:** Junit, Shell Scripting, SQL.

**Web Technologies:** HTML5, CSS3, JS, SOAP, REST, SpringBoot.

**Other:** Problem solving, Data structures and algorithms.

## ACHIEVEMENTS & CERTIFICATES

- Governor Award in Scout & Guide
- HackerRank Certified Java Developer
